INTERAVIA

World Review of Aviation • Astronautics • Avionics

Index for Year 1979 – Volume XXXIV

PRINCIPAL TOPICS

1 Combat pilot training
The European F-16 program
Air Forces of the world

2 Business aviation 1979
Tornado production progress
Two growing airlines in Asia

3 New materials and manufacturing methods
Short-haul air transport

4 Deregulation of the US air transport industry
F-18A versus F-18L

5 Helicopter business booming
The air transport scene
Poland's aircraft industry

6 French aerospace industry
WG30 project
Aircraft firefighting

7 Paris Air Show report
Military helicopter user tables
Boeing's commercial policy

8 Business and commuter aircraft
British Aerospace 146
Cruise missiles

9 Civil aviation training
Air cargo handling
DC-9 Super 80

10 Italian aerospace industry
Shorts 330 commuter aircraft
Oil supplies

11 Air transport
Ariane ready to go
Telecom '79

12 Belgian aerospace industry
Communications satellites

SUBJECT INDEX

Air transport

Regulatory reform in Europe? It's unlikely: 1/5
Recent airline orders: 1/7; 2/107; 3/192; 4/287; 5/372; 6/476; 7/620; 8/726; 9/809; 10/898; 11/1002; 12/1114
IATA set on new course – 34th AGM approves important changes: 1/71
New life for propellers? Two approaches to the prop-fan concept – *Chris Bulloch:* 1/83
When will there be a mandatory collision avoidance system? – *Dan Boyle:* 1/87
Transport aircraft sales and deliveries, January-December 1978: 2/109
Development of world scheduled revenue traffic. Total services 1968-1978: 2/110
Commercial transport business booms: 2/110
Stretched DC-10 go-ahead this year?: 2/111
Pressure on the CAB over "Show Cause": 2/113
New twin turboprops for the third-level market: 2/113
The rise of air transport in Southeast Asia: 2/155
Garuda – airline to Paradise – *H.P. Mama:* 2/156
Malaysian Airlines grows quickly to maturity despite odds – *H. Krug:* 2/159
Aviation fuel: can the rising costs be absorbed? – *Peter Tallon:* 2/167
Air France profitability improves, low fares key to future: 3/191
European regional carriers begin to make their mark – *Peter Tallon:* 3/247
European regional carriers: 3/249
US commuter operations climate changing – *L. Davis:* 3/252
Ansett Airlines concern for the future – *H. Krug:* 3/263
Company reports review: 3/273
New life for the airship?: 4/285
Air transport: reserving the right to make mistakes?: 4/287
Deregulation of the US air transport industry cheered by some, condemned by others – *J.F. Brindley:* 4/303
Allegheny Airlines seeks growth through deregulation – *R. Lopez:* 4/307
Aviation fuel becomes an issue again: 5/371
IATA scheduled and charter traffic, 1978: North and South Atlantic: 5/372
Boeing introduces Commercial Chinook B.234 aimed at complete new market 5/411
US air transport policy–international reactions to deregulation – *J.F. Brindley:* 5/427
ICAO forecasts increasing traffic growth for Africa: 6/475
Selected financial results, 1977/78: 6/478
Survivability in aircraft fires – New standards are needed: 6/557
Aviation in the Arabian Gulf – *Peter Tallon:* 6/580
JAL grows despite obstacles – *J.P. Geddes:* 6/597
Airbus A310 – latest design details: 6/600
Lufthansa cautiously optimistic about the future: 7/619
The ACCESS and Raycargo systems – Computer developments in the air cargo industry – *Peter Tallon:* 7/693
CAB pressure for deregulation: 7/709
Deregulation for Europe? Perhaps...: 8/725
Air France and the current air transport market: 8/725
IATA statistics 1978: spectacular resurgence: 8/728
Mecacon '79: move towards improved Middle East cooperation: 8/727
Business jets and commuter aircraft – Two developing markets: 8/741
Commuter aircraft – Developing market brings host of new projects – *M. Grangier:* 8/742
Saudia – the conservative approach to growth pays dividends – *Peter Tallon:* 8/773
FAA weathers DC-10 storm: 9/809
Fuel costs: IATA agrees further tariff rises: 9/811
Training civil aviation flight and ground crews: 9/829
Soviet civil aviation training programs – *L. L. Whetten, J. Waddell:* 9/829
Pilot training – the UK scene – *B. Sweetman:* 9/835
Swissair: 48 new pilots every year – *K. Höhle:* 9/845
Lufthansa – More pilots, more simulators – *K. Höhle:* 9/847
Air cargo's increasing dependence on information technology – *N. Lanyon:* 9/849
The DC-9 Super 80 – Much more than a simple stretch – *J.P. Geddes:* 9/865
The new L-410 UVP Turbolet – Designed for regional markets – *M. Grangier:* 9/870
Lockheed urges hydrogen fuel: 9/872
Olympic Airways looks to brighter future: 10/897

France seeks streamlining of airline pilot recruitment and training methods – *G. Chambost:* 10/945
Training the KLM way – *K. Höhle:* 10/947
CP Air takes on Air Canada – *M. Willmot:* 10/949
Middle East Airlines survives and prospers – *D. Wood:* 10/951
Shorts 330 looks ahead – A unique 30 seat commuter aircraft – *D. Wood:* 10/978
How long can the oil last?: 10/980
Concorde production ends: 11/1001
Air Portugal banks on TriStar for a better future: 11/1002
Cargolux growth an indicator for air cargo: 11/1003
B.767 and A310 – sisters under the skin? – *Bill Sweetman:* 11/1025
European air transport in a holding pattern – *Peter Tallon:* 11/1030
Interavia's Review of World Airlines – the top performers: 11/1041
Financial aid for civil aircraft construction in Germany: 12/1113
Commuter aircraft: the engine manufacturers show their hands: 12/1114
European Commission takes a look at civil aviation–*B. Sweetman:* 12/1143
Airports for the mass-transit era: ICAA Congress 1979: 12/1193

General aviation

The MU-300 and the Foxjet – Two outsiders for the bizjet stakes – *M. Grangier:* 1/73
Falcon Guardian program update – *M. Grangier:* 1/93
General aviation prepares for the 1980s – *M. Grangier:* 2/121
GA avionics prospers with new technology – *J. P. Geddes:* 2/125
Safety in general aviation – The San Diego accident points to problem areas – *M. Grangier:* 2/128
Jet Aviation: A total service for business aviation – *M. Grangier:* 4/321
The MBB/Kawasaki BK 117 tailored to the offshore operations market: 4/324
Is the executive helicopter about to make the scene? – *M. Grangier:* 5/400
Boeing introduces Commercial Chinook B.234 aimed at complete new market: 5/411
Westland unveils WG30 transport helicopter – *D. Wood:* 6/575
Swearingen sales boom continues – *D. Chopping:* 6/578
The Falcon 50 enters service – *M. Grangier:* 7/660
New boost for the Skyservant program: 8/732
Series production of Diamond 1 bizjet underway: 8/732
US Coast Guard selects Dauphin 2 helicopter: 8/733
Business jets and commuter aircraft – Two developing markets: 8/741
Learjet 50 Series beings testing – *J. P. Geddes:* 8/746
The Reading General Aviation Show at a turning point?: 8/758
Stretched Challenger project go-ahead: 9/815
Agricultural aircraft – The search for new markets – *M. Grangier:* 9/873
TAG Canadair Challengers for Middle East operations: 10/902
T700 powerplant for WG34 helicopter? 11/1004
Heavy Lift Helicopter program to be revived? 11/1004
32nd NBAA Show Atlanta 1979 – *M. Grangier:* 11/1013
A close look at the Raytheon/Beech merger: 12/1115

Airports

18th ICAA congress calls for more cooperation: 1/10
Who would be an airport planner?: 2/105
Orlando International
New gateway to the sunshine State – *K. Höhle:* 2/161
Intercontinental operations now possible at Basle-Mulhouse: 6/475
Selected worldwide airport traffic statistics, 1977-1978: 7/621
London's third airport: study group pinpoints potential sites: 7/623
US airport and airways improvements: users to pay more: 7/625
Expanding Tokyo's airport capacity – *J. P. Geddes:* 7/657
Airports for the mass-transit era: ICAA Congress 1979: 12/1193

Air traffic control

ICAO obstacle Clearance Panel meets: 1/11
When will there be a mandatory collision avoidance system? – *Dan Boyle:* 1/87
Safety in general aviation
The San Diego accident points to problem areas – *M. Grangier:* 2/128
FAA airspace control measures attacked: 5/372
UK radar get-together: 5/377
Collision avoidance ADSEL/DABS marches on – *Dan Boyle:* 8/757
ATC flow management–a European problem – *Dan Boyle:* 10/964
ARSR-3 in service: FAA installs new Air Route Surveillance Radars: 10/977

Military aviation

KC-10 production go-ahead: 1/12
Westland's WG.34 project: 1/12
AWACS for Europe – virtually certain: 1/13
Cruise missile interception tests under way: 1/14
Training tomorrow's combat pilots: 1/22
The training schemes: all things to all air forces: 1/27
F-16 – The multi-national, multi-role aircraft – *Dan Boyle:* 1/39
T-34C spearhead of Beech defence activities – *M. Grangier:* 1/44
Air Forces of the World – 1979: 1/51
Falcon Guardian program update – *M. Grangier:* 1/93
Mid-point in the Tornado program
The development phase draws to a close: 2/136
Multi-national production gets under way (Tornado): 2/141
Product support for Tornado units – an industry responsibility: 2/144
RB.199 is Europe's biggest engine program: 2/145
The AS.332 Super Puma
A European UTTAS – *M. Grangier:* 2/170
A European combat aircraft for 1990?: 3/189
FY 1980 US defence budget: how fat is lean?: 3/194
Two approaches for a better Atlantic: 3/196
Technology options for an advanced tactical fighter: 3/229
GPS a universal navigation aid – *Dan Boyle:* 3/266
French Defence, Civil Aviation and Space budgets: 4/290
Modest rise in UK defence spending: 4/291
Tactical pilotless aircraft: do they really have a future? – *Chris Bulloch:* 4/335
Britain rethinks its future strike aircraft policy – *D. Wood:* 4/339
Two versions of the F-18 in hot competition – *J.P. Geddes:* 4/351
New lease of life for AMST?: 5/373
Arms sales accelerate: the price of peace?: 5/374
Military helicopters in Europe the proposals and the requirements – *M. Grangier:* 5/395
The "Big Wing" Harrier – *D. Wood:* 5/447
The Franco-German anti-tank helicopter: time to stop and think: 6/476
UK leads NATO air defence re-equipment: 6/478
Fuel on fire – rapid response to a military problem – *Dan Boyle:* 6/554
Westland unveils WG30 transport helicopter – *D. Wood:* 6/575
The world's military helicopter fleet and its predicted growth to 1990: 7/677
Two birds in the hand? Europeans jockeying for US Navy trainer: 7/707
The MX and SALT II: 8/730
AEW radar and communications problems: 8/734
Cruise missile developments in the aftermath of SALT II – *F. C. Berry, Jr.:* 8/760
Fantrainer status and prospects: 8/778
The German Navy procures its first shipborne helicopter: 8/790
Eye-ball control – *Dan Boyle:* 9/874
AV-8B demonstration successful, but program still uncertain: 10/899
Tornado ADV flight development underway: 10/900
French Air force program for 1980: 11/1003
T700 powerplant for WG34 helicopter: 11/1004
Heavy Lift Helicopter program to be revived? 11/1004
MX missile mobile basing system: 11/1007
Clash on German defence spending: 11/1008
RAF to build up fighter strength: 11/1009
The F-16 co-production – an American point of view – *J. P. Geddes:* 11/1090
Speed up for the ADV Tornado? 12/1117
Mangusta to have day/night weapons systems: 12/1117
One step forward for the Franco-German anti-tank helicopter program: 12/1120
US Roland enters production: 12/1120
International debate on RPVs–*Doug Chopping:* 12/1139
F-16 European test and evaluation: 12/1177
MEDE: Military Electronics Defence Expo '79: 12/1197

Space

Skylab doomed: bad luck or bad planning: 2/114
Venus observed: 2/114
NASA budget: austere or inadequate?: 3/193
Space science: what's up and what's coming–*Chris Bulloch:* 3/234
GPS a universal navigation aid–*Dan Boyle:* 3/266
French Defence, Civil Aviation and Space budgets: 4/290
Communications and TV satellites: France takes the plunge: 4/293
The Shuttle in trouble; Ariane takes a chance: 4/294
Spacelab problems: real but manageable, says ESA: 5/376
European space programs–An industrial plea for integrated effort: 8/785
Space Shuttle: How late, how much? – *Chris Bulloch:* 10/961
Consultants' report on Shuttle program management: 11/1010
Franco-German TV-Sat agreement: 11/1011
Ariane ready to go – *Chris Bulloch:* 11/1073
Towards a European Space Transportation System: 11/1089
New satellite projects at Telecom 79: 11/1094
Satellite communications: Civil applications thriving–*Chris Bulloch:* 12/1134

Industry

Hellenic Aerospace Industries opens for business: 1/11
F-16–The multi-national, multi-role aircraft – *Dan Boyle:* 1/39
T-34C spearhead of Beech defence activities – *M. Grangier:* 1/44
Hindustan Aeronautics Limited: India's versatile aircraft manufacturer – *H.P. Mama:* 1/76
New life for propellers? Two approaches to the prop-fan concept – *Chris Bulloch:* 1/83

Commercial transport business booms : 2/110
Stretched DC-10 go-ahead this year? : 2/111
US manufacturers optimistic about 1979 : 2/112
New twin turboprops for the third-level market : 2/113
General aviation prepares for the 1980s : 2/121
Mid-point in the Tornado program
The development phase draws to a close : 2/136
Multi-national production gets under way (Tornado) : 2/141
Product support for Tornado units – an industry responsibility : 2/144
Company reports review : 2/176
The State holding in Dassault-Breguet : 3/192
31st HAA Show – a TwinStar is born – *M. Grangier :* 3/199
French Defence, Civil Aviation and Space budgets : 4/290
CAE moves up in simulators – *M. Willmot :* 4/319
UK radar get-together : 5/377
A new lease of life for Poland's industry : 5/443
Selected financial results, 1977/78 : 6/478
UK leads NATO air defence re-equipment : 6/478
France's aerospace industry : a note of cautious optimism : 6/499
Swearingen sales boom continues – *D. Chopping :* 6/578
Selected financial results, 1977/78 : 7/622
DC-10 Series 62/63 stretched versions : 7/621
Belgium enters the Airbus consortium : 7/622
Future prospects for Fokker : 7/641
Boeing charts a course through the 1980s – *J.P. Geddes :* 7/646
BAe slots into Airbus Industrie – *D. Wood :* 7/653
The "Tokyo Round" Aircraft Agreement – US sponsors overhaul of tariffs and trade practices – *Chris Bulloch :* 7/655
Company reports review : 7/711
Transport aircraft sales and deliveries, January-June 1979 : 8/729
Selected financial results, 1977/78 : 8/730
Top ten US military contractors : 8/731
US Coast Guard selects Dauphin 2 helicopter : 8/733
British Aerospace 146 marketing progress – *D. Wood :* 8/776
Company reports review : 8/779
Selected financial results 1977/78 : 9/812
The DC-9 Super 80 – Much more than a simple stretch – *J. P. Geddes :* 9/865
The new L-410 UVP Turbolet – Designed for regional markets – *M. Grangier :* 9/870
British Aerospace – what does the future hold? – *D. Wood :* 9/878
CASA activities in 1978 : 10/898
The Italian aerospace industry : Export or die? – *Chris Bulloch and M. Grangier :* 10/911
Shorts 330 look ahead : A unique 30 seat commuter aircraft – *D. Wood :* 10/978
How long can the oil last? : 10/980
Company reports review : 10/984
Concorde production ends : 10/1001
T700 powerplant for WG34 helicopter? 10/1004
Heavy Lift Helicopter program to be revived? 10/1004
B.767 and A310 – Sisters under the skin? – *Bill Sweetman :* 11/1025
The F-16 co-production – an American point of view – *J. P. Geddes :* 11/1090
Financial aid for civil aircraft construction in Germany : 12/1113
One step forward for the Franco-German anti-tank helicopter program : 12/1120
The Belgian aerospace industry in the age of the F-16 and the Airbus–*G. Chambost :* 12/1129
Lockheed-Georgia's projects for the 1980s – *M. Grangier :* 12/1153
Grumman Aerospace : Fifty years of aerospace technology–*Marc Grangier :* 12/1156
Pegasus uprating continues–*Doug Chopping :* 12/1159

Technology

New life for propellors? Two approaches to the prop-fan concept – *Chris Bulloch :* 1/83
The quiet revolution in airframe construction – *Chris Bulloch :* 3/207
Future trends in aircraft structural materials – *A. W. Stauffer, J. H. Wooley :* 3/212
Technology options for an advanced tactical fighter : 3/229
Advantages of composite rotor blades – When will the US catch up? – *M. Grangier :* 5/415
Fuel on fire – rapid response to a military problem – *Dan Boyle :* 6/554
Carbon fibres an environmental hazard? NASA assesses the risk – *Chris Bulloch :* 7/696
Ramjet rennaissance imminent? – *Chris Bulloch :* 9/854
Lockheed urges hydrogen fuel : 9/872
Boeing selects Doppler weather radar : All digital, colour display system will detect storm turbulence : 10/982

Engines

RB.199 is Europe's biggest engine program : 2/145
Ramjet rennaissance imminent? – *Chris Bulloch :* 9/854
T700 engine for WG34 helicopter? 11/1004
Commuter aircraft : the engine manufacturers show their hands : 12/1114
Pegasus uprating continues–*Doug Chopping :* 12/1159

Avionics

GA avionics prospers with new technology – *J. P. Geddes :* 2/125
MECOM' 79 – The Middle East electronic communications show – *E. Ward :* 7/705
Collision avoidance ADSEL/DABS marches on – *Dan Boyle :* 8/757
Eye-ball control – *Dan Boyle :* 9/874
Boeing selects Doppler weather radar : all digital, colour display system will detect storm turbulence : 10/982
MEDE : Military Electronics Defence Expo '79 : 12/1197

International conferences and exhibitions

International Meetings and Conferences : 1/9 ; 2/109 ; 3/198 ; 4/294 ; 5/378 ; 6/482 ; 7/626 ; 8/736 ; 9/816 ; 10/904 ; 11/1012 ; 12/1120
18th ICAA congress calls for more cooperation : 1/10
IATA set on new course – 34th AGM approves important changes : 1/71
International Meetings and Conferences : 3/198
31st HAA Show – a TwinStar is born – *M. Grangier :* 3/199
International Meetings and Conferences : 6/626
Paris Air Show 1979 – One of the best – and bigger than ever : 7/627
MECOM' 79 – The Middle East electronic communications show – *E. Ward :* 7/705
Mecacon '79 : move towards improved Middle East cooperation : 8/727
The Reading General Aviation Show at a turning point? : 8/758
32nd NBAA Show Atlanta 1979 – *M. Grangier :* 11/1013
MEDE : Military Electronics Defence Expo '79 : 12/1197
